

Neumont College of Computer Science | Mock Interview Personal Assessment for Students

The survey will take approximately 6 minutes to complete.

Complete a personal assessment of your interview/meeting by submitting your responses to the following questions on this form. This component of the Mock Interview assignment is worth 5 points total.

(!) To receive credit for this portion of this assignment, you must upload a PDF of the completed form to the LMS assignment. A PDF copy is available for download after submission.

Remember that there are no right or wrong answers to any of these questions and prompts. The most important component to this assignment is that you answer with honesty and integrity as you reflect on your experiences during the mock interview.

Basic Information

1. Date of interview: *

5/8/2024

2. Your First Name *

As listed in the LMS course.

Michael

3. Your Last Name *

As listed in the LMS course.

Bates

4. Select the current quarter: *

- ☐ Q1 - Winter
- ☒ Q2 - Spring
- ☐ Q3 - Summer
- ☐ Q4 - Fall

5. Select the EP course in which you are currently enrolled: *

- ☐ PRO490
- ☒ PRO491
- ☐ PRO492

6. Enter your EP sponsor company: *

AdvancedMD

7. Select your degree program: *

BSSE

Interview Personal Reflection & Assessment

8. Name of interviewer(s) and their job title(s): *

Separate multiple interviewers with a semicolon.

(Example: Amy Whittaker, Career Services Manager; Christy Wagner, Career Services Coordinator)

Scott McCartney - QA Automation Engineer

9. Provide details of the length and format of the interview. *

The interview was around an hour long, it was way more casual than the one with Jared last EP.

While I didn't have a technical portion, I did learn a lot more than the previous interview. He gave me a few resources/books to read, and topics I should know.

10. Overall, what do you think you did well in this interview? *

I feel like I improved a lot with the standard talking about myself parts, and I'm getting better at answering questions related to teamwork.

11. Was there a technical component to your interview? *

☐ Yes

☒ No

12. If you answered yes, describe the task and how it went: *

N/A

13. Were there specific questions and aspects of the interview that were challenging and/or you can improve upon? *

Be sure to include any feedback/suggestions offered by your interviewer in addition to your own self-assessment.

I didn't have SOLID memorized, nor did I remember that TDD stands for Test Driven Development. I also have room for improvement when it comes to teamwork questions. When I was asked "What do you do when working with a difficult teammate". I answered "Try to chunk off a section for them so they can go Silo themselves off", which he said was a good answer, but then I continued "If it's not personal problems, but instead competency at code I would end up going back over their work and doing it myself". Scott said I could be more diplomatic and leave my answer at just the first half.

14. What are 1 or 2 interview skills that you can realistically commit to improving upon before your next interview? *

Reflect on your response to Question 13 and try to think about specific action-oriented activities/tasks that are achievable. Be prepared to discuss with Amy Whittaker in your 1:1 meeting.

Teamwork related answers, and the way I approach the technical aspect. I feel like I did pretty bad at the technical part in my first interview, and I didn't get a chance to practice it in this one.

Enterprise Project

15. Did you review your Enterprise Project performance? *

☒ Yes

☐ No

16. If you answered yes, provide a brief recap of key takeaways discussed with your sponsor. *

Include any and all relevant takeaways applicable to your professional development, growth, and goals.

He had a ton of nice things to say, such as my proactive nature, my quick code turnaround time, and how well I meshed with the other interns. If you want more specifics you can check the recommendation he wrote for me on linkedIn after the interview B)
